Employment History

General Warehouse Worker at Intinate Shipping, San Antonio

May 2018 – April 2019

Use ERP system functionality to record and monitor picking and packing output average of 50 workers per each 8-hour shift daily and compare with target output figures.

- Pack or wrap materials and products manually
- Stack and palletize products according to facility specifications
- Notify supervisors of defective products or damaged packaging
- Assist machine operators with hand signals on where to move large pallets from the packing area to the loading bay
- Identify product codes and SKU numbers against invoice manifests
- Ensure a clean and orderly work station at all times
- Identify, separate and label products and containers
- Tag pallets with the correct identification numbers
- Move merchandise from pick slot to conveyor area

General Warehouse Associate at Industrial Shipping & Containers, Los Angeles

April 2017 – March 2018

Reorganized the warehouse layout, making the process 50% more efficient because finished products are closer to the loading bay areas and pallets carriers can transport pallets quicker to the designated sections where uploading takes place.

- Assess organizational needs and implement administrative procedures to streamline inventory records
- Create reports and spreadsheets to be utilized by the shipping department and the distribution department
- Provided clerical support by printing shipping orders, invoice manifests, products received records and route maps for distribution trucks
- Keep track of incoming and outgoing pallets and containers
- Completed inventory auditing, product inspection, and order selection
- Maintain and update warehouse task documentation and records for submission to supervisors and team leaders
- Review item locations to ensure proximity to delivery sites
