EMPLOYMENT HISTORY

May 2019 — Present **Armed Security Officer, Department of Defence** Washington

Enhanced access control, reducing unauthorized entry, and solicitation with 28% by utilizing an announcement notification app, where visitors can be approved or declined directly from the employee's smart device.

- Perform identification checks and vehicle searches on all clients and employees entering the facility
- Safeguard employees, clients, and visitors with proper vetting techniques
- Provide directions and assistance to visitors and notify front desk reception that they are on their way
- Respond to emergencies involving buildings or people adhering to safety procedure conduct of the company
- Conduct regular foot patrols around the premises at night checking for open windows, unlocked doors, and unauthorized activities
- Log into security headquarters hourly during the day and every two hours during the night notifying them of all in order status
- Used armed force when needed to protect company assets, employees, visitors and clients when required
- Apprehend suspects in the case of security breaches and detain them until police arrive

Jan 2018 — Apr 2019 **Security Officer, Indigo Outlet Mall** Seattle

Streamlined monitoring and detection procedures by installing 360 degrees CCTV cameras towards the back of the shopping aisles and in the storerooms, which decreased product stock attrition by 30%.

- Provide physical security, access control and emergency response to customers and employees
- Patrol parking lots on upper and underground levels and report suspicious activities to Center Management
- Monitor incoming and outgoing vehicles and do spot searches inside the vehicles
- Scan area premises for objects and items seemingly out of place and notify Center management of unattended bags or packages
- Inspect restrooms after hours for vagrants or unauthorized entrants
- Monitor designated areas via CCTV app on smart devices and tablets
- Report safety concerns or peculiar circumstances to the Head of Security
- Log events and incidents as per employer protocols
- Handle emergencies and security issues following predetermined rules of conduct set out in the safety and security manuals

Jan 2016 — Dec 2017 **Security Officer, H2O Chemicals** Borger

Initiated innovative loss prevention techniques by introducing an X-ray scanning system at all entrances and exits in the building reducing thefts by 23%.

- Perform identification checks and vehicle searches on all clients and employees entering the facility
- Safeguard employees, clients, and visitors with proper vetting techniques
- Provide directions and assistance to visitors and notify front desk reception that they are on their way
- Respond to emergencies involving buildings or people adhering to safety procedure conduct of the company
- Conduct regular foot patrols around the premises at night checking for open windows, unlocked doors, and unauthorized activities
- Log into security headquarters hourly during the day and every two hours during the night notifying them of all in order status
- Used armed force when needed to protect company assets, employees, visitors and clients when required
- Apprehend suspects in the case of security breaches and detain them until police arrive
