

# James Abramov

Security Officer

Los Angeles, United States email@email.com

## Profile

Safety conscious, observant Security Officer with seven years of experience in guarding and protecting key individuals in the defense and military sectors. Adept at scanning surroundings and immediate environments for potential threats and risks of human and nonhuman nature. Currently completing a Bachelors in Criminal Justice and accredited as a CPO (Certified Protection Officer).

## Employment History

May 2019 — Present

Washington

### Armed Security Officer at Department of Defence

Enhanced access control, reducing unauthorized entry, and solicitation with 28% by utilizing an announcement notification app, where visitors can be approved or declined directly from the employee's smart device.

- Perform identification checks and vehicle searches on all clients and employees entering the facility
- Safeguard employees, clients, and visitors with proper vetting techniques
- Provide directions and assistance to visitors and notify front desk reception that they are on their way
- Respond to emergencies involving buildings or people adhering to safety procedure conduct of the company
- Conduct regular foot patrols around the premises at night checking for open windows, unlocked doors, and unauthorized activities
- Log into security headquarters hourly during the day and every two hours during the night notifying them of all in order status
- Used armed force when needed to protect company assets, employees, visitors and clients when required
- Apprehend suspects in the case of security breaches and detain them until police arrive

Jan 2018 — Apr 2019

Seattle

### Security Officer at Indigo Outlet Mall

Streamlined monitoring and detection procedures by installing 360 degrees CCTV cameras towards the back of the shopping aisles and in the storerooms, which decreased product stock attrition by 30%.

- Provide physical security, access control and emergency response to customers and employees
- Patrol parking lots on upper and underground levels and report suspicious activities to Center Management
