01 PROFILE

Patient-focused Certified Nursing Assistant (CNA) with six years of experience in providing direct patient care in pediatric and neonatal wards. Highly adept at taking vital signs and administering medication to babies and infant patients. CPR and BLS certified. Meticulous in adhering to health and safety protocols to maintain infection control standards.

02 EMPLOYMENT HISTORY

01/2019 – Present

Certified Nursing Assistant at St John's Hospital

Sometown

Directed a team of junior certified nursing assistants for two weeks in the absence of the nursing manager with a zero-incident rating.

- Display sound clinical skills in assessment of vital signs, performing glucose checks and lab draws
- Providing pre- and post-operative care to patients in ICU
- Adhere to safety guidelines to eliminate safety risks to patients and the health care facility environment
- Ensure the accurate, timely flow of information by maintaining detailed patient records providing progress updates to respective healthcare teams
- Comply with HIPAA standards in processing patient documentation and recording of medical information
- Provide high-quality patient assistance in rehab, surgical, acute-care, hospice nursing-home healthcare settings

01/2018 – 12/2018

Certified Nursing Assistant at Miami Medical Center

Omaha

Created an online cloud-based recordkeeping system which increased efficiency in documenting nursing activities via reports, forms, and logs with 50%.

- Focused on preserving patient dignity and minimizing discomfort during nursing duties such as bed bathing, inserting IV's drawing blood, removing draining bags and changing bedpans
- Maintain up to date charts recording hourly vital sign scores such as temperature, blood pressure, and heart rates

- On-call to answer patient buzzers and assisting with requests from patients and family members where needed
- Turn, reposition and ambulate elderly patients on a six-hour schedule
- Observing patients for any changes in physical or mental conditions and report issues to the Staff Nurse
- Tidying-up wards, restrooms, and family waiting areas
- Assist with cleaning and sanitizing theatre equipment and surgical instruments post-operative procedures

01/2017 – 10/2017

Certified Nursing Assistant at Blue Dove Hospice Center *Traverse City*

Spearheaded a nursing risk management initiative reducing the probability of incorrectly administering medication by 99.9%.

- Assist incapacitated patients in maintaining daily personal hygiene such as bathing, dental care, and skincare regimes
- Comfortable with basic medical procedures, for example, administering enemas, applying dressings, and conducting heat and ice treatments
- Comply with HIPAA Privacy Act to protect confidential medical records and patient information.
- Measure and record patients' liquid and food intake
- Assist the Staff Nurse with complex medical procedures
- Monitor medical supply levels in the storeroom and conduct a weekly stocktake of medication
