

Clint Hanks

Electrical Engineer

Los Angeles, United States email@email.com

Profile

Energetic Electrical Engineer with nine years of experience in the production design of microprocessors for global navigation systems in the Aerospace Industry. Experience with Eagle, PADS and ORCAD, PADS, and Eagle. Involved in the design of 200+ specialized PCBs in the last 18 months. Holds a Ph.D. in Signal Process Electronics.

Employment History

Jan 2018 — Jul 2020

Jackson

Electrical Engineer at Manow Industries

Overhauled machine arrangements across various departments to improve efficiency by 38% in 30 days

- Design, maintain and improve electrical systems, components, facilities and instruments for domestic, commercial or industrial purposes
- Use computer-assisted design and various engineering software and equipment to perform engineering duties
- Discuss project scope, progress, and challenges with Engineering Manager
- Ensure the installation and operating mechanics of circuitry and electrical components conform to client specification
- Prepare technical spec lists and schematics for PCB boards, circuitry and high voltage systems electrical systems specifications, technical drawings or topographical maps
- Establish installation and maintenance standards by performing complex calculations
- Ensure compliance with industry codes and regulations by directing and coordinating the installation, manufacturing, maintenance, troubleshooting, testing and repair of electrical systems or components
- Write reports and compile data sets regarding current and future engineering projects and research studies

Jan 2016 — Dec 2017

Winterhude

Electrical Engineer at RTA Electrical Components

Spearheaded the Lean Manufacturing Kanban philosophy which had positive effects on quality, cost and time levels by decreasing expenditures by 28%, improved quality by 18% and cut lead times by 34%

- Prepare specifications of procurement of electrical materials and equipment
- Supervise junior staff members and contract workers

Details

1515 Pacific Ave

Los Angeles, CA 90291,
United States

(541) 754-3010

Place of birth

San Antonio

C / C++ / C#

SCADA

Project management
skills

Prototyping and testing

- Create estimation reports for material, labor and construction costs and present as part of budget preparations
- Develop, review, update, modify and approve works schedules and relevant electrical schematics and design plans
- Continuously liaise with other engineers and clients to ensure deliverables are met
- Liaise with third-party vendors and suppliers to ensure material delivery deadlines are met

Jan 2013 — Jun 2016

Austin

Electrical Engineer in Training at Maquin Power Generation

Designed 300 unique PCB's over the course of 24 months

- Maintain, tweak and improve current electrical engineering operations and facility processes
- Draw up schedules, budgets, company regulations and relevant policies regarding safety and compliance
- Continuously analyze processes to discover room for improvement in operation efficiencies
- Conduct research, perform diagnostics and troubleshoot equipment and machinery

Education

Jul 2020 — Jul 2020

Indian Trail

National Council of Examiners for Engineering and Surveying (NCEES)

Professional Engineering (PE) Exam

Jan 2019 — Jul 2020

Online

IEEE Membership

Institute of Electrical and Electronics Engineers, Online

Jan 2016 — Jul 2018

Charlotte

University of North Carolina

Doctor of Philosophy in Electrical Engineering

Thesis Topic: Micro-electro and Electrical systems design and design optimization in Class I Medical Device applications

Jan 2012 — Dec 2015

Seattle

Seattle Pacific University

Bachelor of Science in Robotics & Control Systems

Courses

Jan 2011 — Apr 2011

Certificate in Electrical Estimation at Westwood College, Los Angeles
