## 01 PROFILE

*Energetic Biologist with a specialization in wildlife management. Focused upon continued species health, well-being, and successful procreation of threatened and endangered species. Love of the outdoors and acclimation to a multitude of environments, including extreme cold climates, deserts, and marine geographies.*

## 02 EMPLOYMENT HISTORY

01/2018 — 09/2020

### **Biologist at World Wildlife Services**

*Kansas City*

*Managed 500 DNA and tissue samples*

- Use in-project and client channels to review environmental reports
- Provide engineering teams with environmental support
- Provide regulators and politicians with feedback
- Map ecosystems
- Work towards becoming a part the many ecological research projects
- Continuously display an active involvement in field teams
- Be ready to travel on short notice
- Partake in industry designations like Qualified Environmental Professional
- Maintain a working knowledge of the state regulatory and municipal requirements

01/2016 — 12/2018

### **Biologist at Oceanic Solutions**

*Redmond*

*Conduct Radio-tracked 16 white-tailed deer (Federal Endangered Species) to determine fawn survival ed 60 hours of surveys over three weeks*

- Know and understand the applicable federal legislation for environmental assessments
- Display exceptional identification skills concerning plant, fish, wildlife, soils, and ecosystems
- Continuously work to better your skillsets for professional development
- When required by project management or clients, act as an environmental consultant
- By using technical theories, practices, and company policies, actively use professional experience
- Make use of computer software and modeling programs to accurately predict and solve problems in wildlife demographic that has been impacted by human development

09/2020 — 09/2020

### **Biologist at ENM Histology Services**

Performed routine testing in the following areas: AFB testing (smear, culture, and ID using solid media), which identified four new areas of research

- Design and execute experiments in a wet laboratory
- Be able to communicate the results and concepts to scientists and non-scientists alike
- Act as a point of contact for both project administrators and their various parties
- Provide accurate information and advice on the construction of habitats, ecological systems, and biological relocations
- Conduct data analysis
- Assist students in finding the relevant information they need for their projects by utilizing the databases
- Foster a closely-knit working relationship with college faculties to have the proper research resources available for specific projects.
- Aid students with researching local employers and making contact with human resources professionals
- Responsible for the maintenance of the research library

### **03 EDUCATION**

---

Sep 2020 — Present

**University of Colorado**

*Denver*

Master of Science in Biology

Jan 2017 — Dec 2019

**University of Nevada,**

*Reno*

Bachelor of Science in Chemistry

Sep 2020 — Sep 2020

**University of Minnesota**

*Moorhead*

Certification in Molecular Pathology

Jan 2014 — Feb 2015

**Harvard University**

*Boston*

Chemistry and Microbiology Laboratory Certification

### **04 SKILLS**

---

Microbiology

Test Cases

Clinical Laboratory

Data Analysis

DNA and RNA Analysis

Methodical

ELISA

Analytical

### **05 LANGUAGES**

---

English

German

French

### **06 HOBBIES**

---

Skiing, Diving, Running
