

Sep 2020 — Sep 2020

## Biologist at ENM Histology Services

*Performed routine testing in the following areas: AFB testing (smear, culture, and ID using solid media), which identified four new areas of research*

- Design and execute experiments in a wet laboratory
- Be able to communicate the results and concepts to scientists and non-scientists alike
- Act as a point of contact for both project administrators and their various parties
- Provide accurate information and advice on the construction of habitats, ecological systems, and biological relocations
- Conduct data analysis
- Assist students in finding the relevant information they need for their projects by utilizing the databases
- Foster a closely-knit working relationship with college faculties to have the proper research resources available for specific projects.
- Aid students with researching local employers and making contact with human resources professionals
- Responsible for the maintenance of the research library

## Hobbies

Skiing, Diving, Running

## Education

Sep 2020 — Present

Denver

### University of Colorado

Master of Science in Biology

Jan 2017 — Dec 2019

Reno

### University of Nevada,

Bachelor of Science in Chemistry

Sep 2020 — Sep 2020

Moorhead

### University of Minnesota

Certification in Molecular Pathology

Jan 2014 — Feb 2015

Boston

### Harvard University

Chemistry and Microbiology Laboratory Certification
