PROFILE

Highly competent Laboratory Assistant with 2 years of experience, skilled in record keeping and specimen collection. Seeking to support efficiency in a laboratory environment. Maintained 98.9% error-free documentation of all lab tests for three years. Promoted to head Lab Assistant after two months for exceptional dependability.

EMPLOYMENT HISTORY

Lab Assistant, Algoriz Chemicals

Jan 2019 — Oct 2020, Orangevale

Used MS Excel applications to create pivot tables that identified most-used, overpriced supplies and lab \$2,000 a year in supply costs

- Processing samples to identify suitability for experiments
- Setup of lab equipment and setting out test samples
- Keep the records accurate and up to date
- Label specimens
- Quality assurance to be performed on samples.
- The maintenance and cleaning of the lab and lab equipment.
- Communicating with the teams at warehouses as well as distribution teams
- Following the directions from the laboratory manager
- Assisting in lab work such as insect identification using a microscope

Junior Lab Assistant, Minute Pathology

Jan 2018 — Dec 2018, Ormond Beach

Devised a new system for safely storing lab test data that saved 3 hours a week in time spent on documentation

- Following the directions from the laboratory manager
- Assisting in lab work such as insect identification using a microscope
- Standard laboratory procedures like maintaining cell cultures preparing slides, and processing tissue are to be performed
- Operate experimental and laboratory equipment like centrifuges, microscopes, photometers, analytical balances, microtomes, electron microscopes, spectrometers, and spectrophotometers
- Compiles data and assists in routine preliminary analyses; maintains research data in a lab notebook, write reports summaries, and present findings to investigator
