👤 PROFILE

Proficient Nurse Anesthetist with over ten years' healthcare experience. Skilled at correctly and safely administering anesthesia services to patients undergoing procedures. Quick to learn new techniques and a first responder to emergencies with a critical thinking and fast-acting mindset. Certified Registered Nurse Anesthetist (CRNA), with the NBCRNA. Holds an Advanced Practice Certification plus State of California CPR, First Aid, BLS, and ALS Certifications

📁 EMPLOYMENT HISTORY

Nurse Anesthetist at Woundcare Specialists, Narva
January 2018 — October 2020

Supervised all patient care procedures provided by Licensed Practical Nurses, Registered Nurses, and Nurse Technicians handling a 30-bed unit ward simultaneously.

- Review patient history, perform a physical assessment, evaluate data in a laboratory, formulate written anesthesia plans for surgical patients of all age-specific groups
- Identify and manage emergencies including CPR as prescribed by BCLS and ACLS standards
- Communicate and cooperate appropriately and effectively with all staff. Demonstrate respect and sensitivity for all patients.
- Maintains satisfaction in performance, patients, and employees, and meets financial standards as outlined in the performance evaluation
- Performs all other duties as assigned
- Able to balance work and personal life.
- Participates in Performance Improvement activities as is instilled by the hospital
- Takes part in emergency airway management problems
- Documents and performs a pre-anesthetic evaluation of the patient
- Administers pain relief for labor and delivery in expecting mothers
- Adheres to the Privacy Standards Confidentiality Agreement and Tenet HIPAA Compliance Plan
- Aims to and supports the mission, purpose, philosophy, objectives, policies, and procedures of the healthcare practice

Nurse Anesthetist Internship at John Wallace ICU, Seattle
January 2017 — December 2017

Singlehandedly provided well-placed intensive care to 17 patients within the ICU in a major city-wide catastrophe event.

- Developing an anesthetic plan appropriate for the patient
- Discussing the risks and side effects of your patients and their families
- Preparing anesthesia and administering it in a variety of forms
- Performing epidural, spinal, or nerve blocks
- Monitoring the patient's vital signs during and after a procedure to prevent and manage complications
- Responding to emergencies with the appropriate medication, airway management, or life support procedures
