

# JOHN SMITH

## Cyber Security Specialist

1515 Pacific Ave, Los Angeles, CA 90291, United States

3056478349

email@email.com

Place of birth ..... *San Antonio*      Driving license ..... *Full*

### PROFILE

*Organized and an excellent communicator with a bachelor's degree in Cybersecurity. Looking to obtain a Security Analyst – Cybersecurity Operations position to apply a deep understanding of Networking, attack vectors, Cybersecurity, and OS's. Coming with six years of cybersecurity experience.*

### EMPLOYMENT HISTORY

❖ **Cyber Security Specialist, G4S** ..... Jan 2018 — Jan 2021  
Nouna

*Responsible for evaluating architectural designs and implement security-focused tools and services such as firewalls, intrusion detection & prevention systems and to define secure build standards across Windows, Unix, and other common operating systems to ensure proper security oversight pertaining to systems and online platforms.*

- Monitored organizational networks for security breaches and investigated any violations.
- Prepared reports which documented security breaches and the extent of damage caused by breaches.
- Conducted penetration testing and located vulnerabilities within systems before they could be exploited.
- Conduct security risk assessments on both new and current CIB applications and infrastructure and utilize the appropriate security diagnostic tools.

❖ **Cyber Security Specialist, Investec** ..... Jan 2016 — Dec 2018  
Colorado Springs

*Tasked with different testing tools and required to use different design techniques (e.g., OO. Top-down, structured analysis, component-based design), and tools to ensure proper oversight of any potential internal and external cybersecurity risks that may compromise the organization.*

- Listened to client concerns to determine the best method of defending WordPress sites from attack.
- Scanned sites for malware and security risks regularly.
- Quarantined and removed any security issues found.
- Design and deploy Enterprise Security technologies and solutions, e.g., Firewalls, IDS/IPS, SIEM, malware detection and analytics, and vulnerability scanning.
- Evaluate architectural designs and implement security-focused tools and services such as firewalls, intrusion detection & prevention systems.
