PROFILE

Organized and an excellent communicator with a bachelor's degree in Cybersecurity. Looking to obtain a Security Analyst – Cybersecurity Operations position to apply a deep understanding of Networking, attack vectors, Cybersecurity, and OS's. Coming with six years of cybersecurity experience.

EMPLOYMENT HISTORY

Jan 2018 — Jan 2021	Cyber Security Specialist, G4S	Nouna
---------------------	---------------------------------------	-------

Responsible for evaluating architectural designs and implement security-focused tools and services such as firewalls, intrusion detection & prevention systems and to define secure build standards across Windows, Unix, and other common operating systems to ensure proper security oversight pertaining to systems and online platforms.

- Monitored organizational networks for security breaches and investigated any violations.
- Prepared reports which documented security breaches and the extent of damage caused by breaches.
- Conducted penetration testing and located vulnerabilities within systems before they could be exploited.
- Conduct security risk assessments on both new and current CIB applications and infrastructure and utilize the appropriate security diagnostic tools.

Jan 2016 — Dec 2018	Cyber Security Specialist, Investec	Colorado Springs
---------------------	--	------------------

Tasked with different testing tools and required to use different design techniques (e.g., OO. Top-down, structured analysis, component-based design), and tools to ensure proper oversight of any potential internal and external cybersecurity risks that may compromise the organization.

- Listened to client concerns to determine the best method of defending WordPress sites from attack.
 - Scanned sites for malware and security risks regularly.
 - Quarantined and removed any security issues found.
 - Design and deploy Enterprise Security technologies and solutions, e.g., Firewalls, IDS/IPS, SIEM, malware detection and analytics, and vulnerability scanning.
 - Evaluate architectural designs and implement security-focused tools and services such as firewalls, intrusion detection & prevention systems.
-
